## CAREER OBJECTIVE

---

Aspiring Generative AI Engineer with a strong foundation in Machine Learning, Deep Learning, and Large Language Models. Passionate about building and fine-tuning LLM-based systems, working with transformers, and applying GenAI techniques such as prompt engineering, instruction tuning, and retrieval-augmented generation to solve real-world problems.

## EDUCATION

---

**Rajiv Gandhi University of Knowledge Technologies, Ongole**  
Bachelor of Technology (B.Tech), Computer Science and Engineering

2023 – Present  
**CGPA: 9.1**

## PROJECTS

---

### Chest-Cancer-Classification-Using-MLflows-DVC 🔄

- Built an end-to-end chest cancer classification pipeline using CT scan images and transfer learning with VGG16.
- Tracked experiments and model versions using MLflow for reproducible evaluation.
- Version-controlled datasets and models using DVC to ensure reliable ML workflows.

### Wanderlust – Travel & Hotel Listing Platform 🔄

- Developed a full-stack travel and hotel listing platform using Node.js, Express.js, MongoDB, and EJS, enabling users to browse, create, and manage property listings.
- Designed and implemented RESTful APIs with secure CRUD operations and database relationships for users, listings, and reviews.

### End-to-End Machine Learning Pipeline 🔄

- Built a production-ready end-to-end ML pipeline covering data ingestion, validation, transformation, model training, and evaluation.
- Trained, evaluated, and optimized ML models using Scikit-learn, integrating logging and exception handling for reliability.

## TECHNICAL SKILLS

---

- **ML / DL:** TensorFlow, Scikit-learn, PyTorch
- **Languages:** C++, Python
- **Data Processing:** NumPy, Pandas, Matplotlib, Seaborn
- **Databases:** SQL, MongoDB
- **Web Technologies:** Node.js, Express.js, EJS (MERN Stack)
- **Core Areas:** DSA, Problem Solving, LLMs

## PROBLEM SOLVING

---

- Solved 600+ problems on LeetCode with a rating of 1627 and a 161-day streak.
- Solved 150+ problems on GeeksforGeeks and 60+ on CodeForces
- Achieved a rating of 1616 on Coding Ninjas, demonstrating strong algorithmic skills.
